

Effect of Implementing Modified Bundle of Care on Early Detection and Prevention of Ventilators Associated Pneumonia	هدير السيد حسن الكنانى
Effect of Implementing modified Valsalva maneuver on clinical outcomes for patients with acute supraventricular tachycardia	محمود مرسي كرم
The effect of airway clearance techniques on respiratory outcomes for patients with bronchiectasis exacerbations	سندس محمد محمد عامر
Effect of Physical Counter Pressure Maneuvers during Femoral Sheath Removal on Adverse Events for Patients Post Cardiac Catheterization	نيره عبدالفتاح يس
Effect of Applying Regulated Suctioning Pressure in Open Endotracheal suction on Patients' Clinical Outcomes	سناء محمد عبدالعليم
Effect of Implementing Nursing Interventions on Clinical Outcomes For Patients Undergoing Cardiothoracic Surgeries	أسماء عادل الشاذلي
Effect of shallow versus deep suctioning techniques on endotracheal tube cuff pressure measurements and physiological indices among patients undergoing mechanical ventilation	رحاب علي زين العابدين

Effect of implementing nursing interventions for critically ill patient undergoing total parenteral nutrition	نهله سمير محمود
Assessment predictors of hospital acquired anemia among critically ill patients	نسمه مصطفى سعيد مصطفى
Effect of Implementing swallowing training Exercises on Neurogenic Dysphagia among Acute Stroke Patients	نادر عبدالحكيم موسي النشار
Relation between Nurses' Perception of using Technological Medical Devices and Patient Safety at Intensive Care Units	دعاء محمد منصور
Effect of risk reduction nursing measures on the occurrence of corneal injury for patients at intensive care unit	ولاء مسعود شندي
Effect of Gravity and Different Positioning on Central Venous Pressure Reading among Mechanically Ventilated Patients	اياه فوزي السيد
Effect of nursing-directed protocol on the occurrence of hypoglycemic episodes among patients at medical intensive care unit	نادر السيد السيد
Effect of Supine versus Right Lateral Position on Intra-Abdominal Pressure Measurements and Respiratory Dynamics for Critically Ill Patients	ياسمين محمود السعيد
Effect of Implementing Nursing Interventions for Bed-Bathing on	نورا عبدالعظيم

Occurrence of Adverse Events among Mechanically Ventilated Patients	
Effect of Back Massage on Clinical Outcomes of Patients with Acute Exacerbation of Chronic Obstructive Pulmonary Disease	شيماء أحمد يس
Nurses' Performance and Attitude toward initiation of Advanced Cardiac Life Support and Defibrillation Shocks at Intensive Care Units	علا أشرف
Perceived Nurses' Barriers and Facilitators of Pain Management among Oncology Critically Ill Patients	أنعام السيد أحمد راشد
Effect of Pain Management Algorithm on Clinical Outcomes for Critically Ill Patients	هبة عرابي
Effect of Foot Reflexology Massage on Traumatic Brain Injuries Patients' Clinical Outcomes at Intensive Care Units	شيماء ابراهيم
Effect of Nursing Interventions on Early detection and Management of Paroxysmal Sympathetic Hyperactivity of Patients with Traumatic Brain Injury	شيماء العشري
Effect of Implementing Protective Measures Regarding Facial Pressure Injuries for Patients with Oronasal Mask	فاطمه أحمد الغريب

Effect of Implementing Tracheostomy Care Guidelines on Patients' Clinical Outcomes at the Intensive Care Units	شيماء ممدوح محمد أحمد حماد
Effect of implementing fluid therapy program on nurses' performance and patient clinical outcomes at intensive care unit	اسماء يسري رمضان البيسيوني
The Effect of Implementing sever traumatic brain injury bundle on patients Outcome	سعاد مصطفى محمد الشارود
Effect of Implementing Oral Care Guidelines on Post Endotracheal Tube Extubation Clinical Outcomes for Critically Ill Patients	شيماء السعودي ابراهيم
