PREPARED By : G10, G7.

Stages of Monkey pox Rash

Stage 2: Papule.

The spots become hard, raised bumps(1-2 days)

Stage 1" Macule "

The rash starts as flat, red spots (Lasts 1-2 days)

Stage 4: pustule.

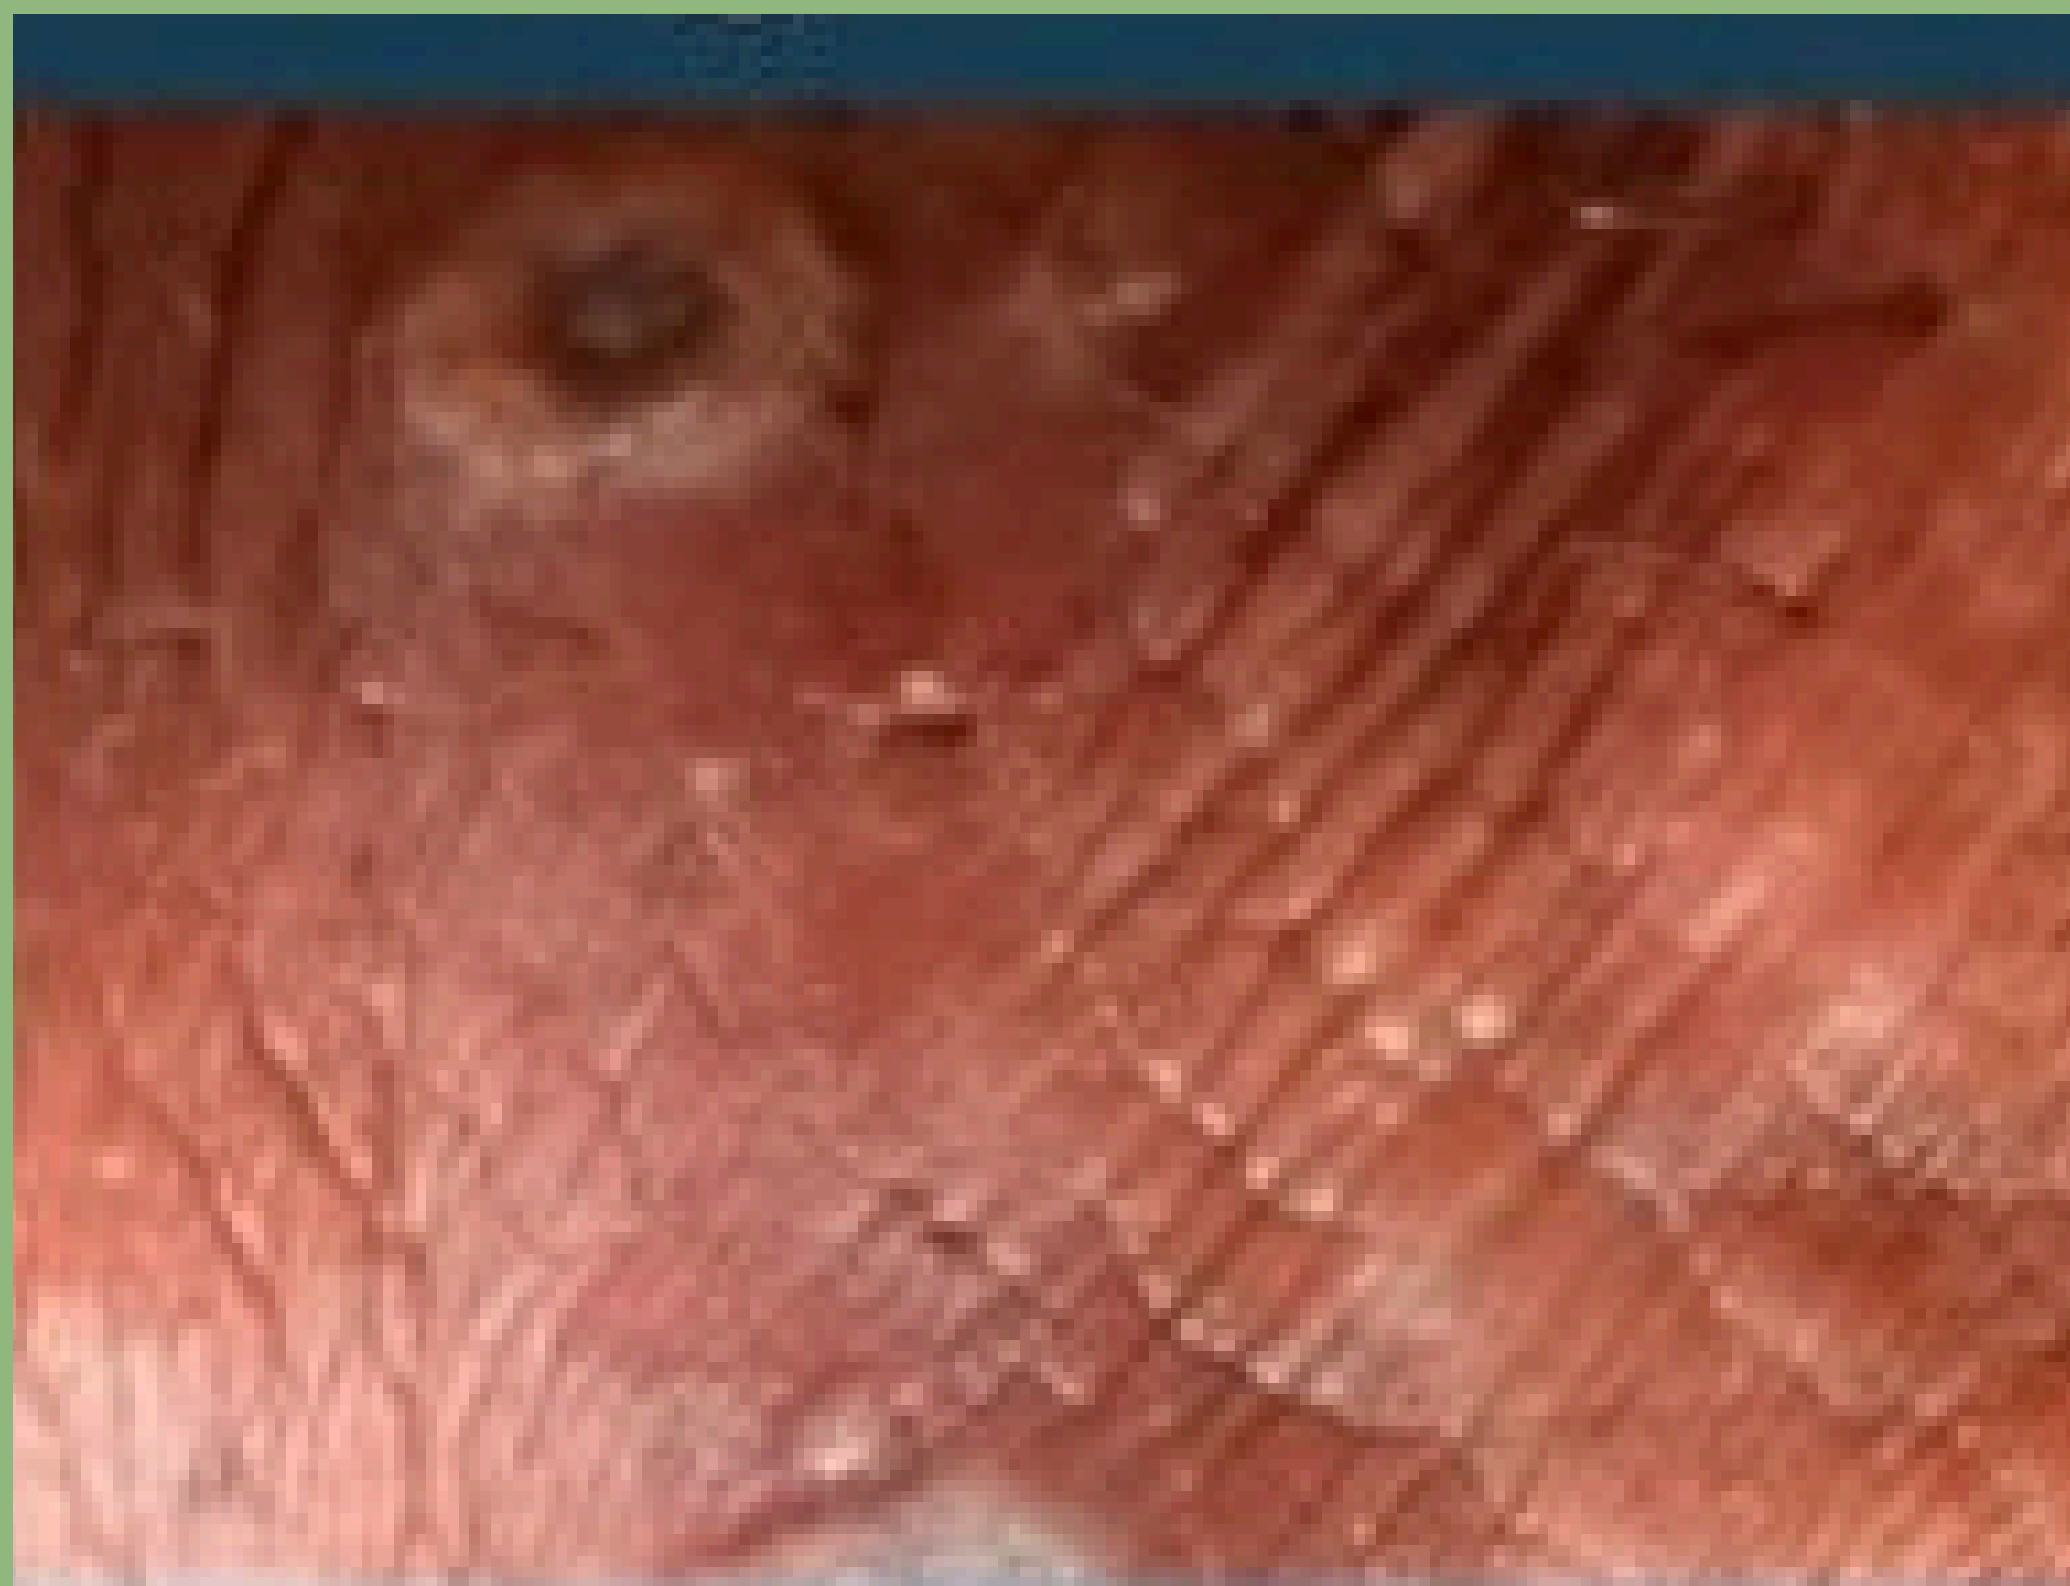

The blisters fill with pus (Lasts 5-7 days).

Stage 3: Vesicle.

The bumps get larger. They look like fluid-filled blisters (1-2Days).

Stage 5: Scabs.

The spots crust over & become scabs (last 7-14 days).
